Duncrahill Stud

Description

Duncrahill Breeze is proving to be a forward going, confident young horse. He has correct confirmation with clean limbs and a good quality of bone. Breeze has the ability to go on and compete in many different disciplines.

Performance

Duncrahill Breeze is currently being backed and is showing good potential. He has 3 lovely paces and beautiful kind temperament.

Sire

Venture Max was bred in Canada and imported to Scotland in 1991. He was selected because he was considered to have good scope and conformation to breed well to the British eventing/ hunting type mare. He has passed on his good temperament so characteristic of his breed. These are all qualities that his offspring have inherited, allowing them to go on and compete in many different spheres.

Venture Max:

- ran three times in Quarter Horse races in Canada as a two and three year old over 350 yards, his best performance being 3rd in 17.9 seconds.
- competed for a season in British Dressage up to Elementary level, ridden by Patrick Print FBHS and was always well placed.
- competed for a season in British Eventing horse trails always finished on a double clear.
- competed in show jumping and hunted with the Berwickshire Hunt.

Venture Max was bred to 123 mares, siring horses which have competed successfully in eventing, show jumping, dressage, endurance and showing in-hand and ridden classes. His offspring have also had many successes in ridden Western classes, Polo and Polocrosse. He has also produced many successful riding club and family horses.

Dam

Duncrahill Merlin is a homebred mare out of Waccabuc Junior who was female and reserve Supreme champion Quarter horse as a 2 year old. Waccabuc Junior was by Waccabuc who was one of the most successful competing Quarter horse stallions to be imported into the UK. Duncrahill Merlin's sire Side Hill sired offspring who have competed in many different equestrian spheres. His blood lines are still prevalent in Duncrahill Stud today.
